

Outplacement Services Offered by The Employers' Association

An effective outplacement program can ease employee stress and lower your risk of negative action. You want to treat your outgoing employees well, but big outplacement firms charge premium prices for services that may not be needed. Rather than offer a standard set of programs, The Employers' Association offers a program that each employee can customize to meet their unique needs at an affordable rate.

Employees can customize their consultation by selecting from the following services:

- Adjusting to the job loss
- Exploring skills, abilities and interests
- Preparing effective resumes and cover letters
- Identifying and utilizing a personal network
- Effective interviewing
- Managing the job search
- Negotiating for salary and compensation

TEA offers two levels of outplacement service
